Dear Parents and Carers,

As we continue to move forward with home learning, we are delighted to have secured a 90 day membership to Active Learn Primary. Active Learn allows teachers to set remote learning for children relating to reading, writing, maths etc.

We would like to launch Active Learn with our children on Monday 20th April. During this week, we would like children and parents to become familiar with "Bug Club" for reading materials. Bug Club allows children to read books that are in line with their ability level and teachers have set books specifically for individual pupils. You will find these allocations when your child has signed in. You will be able to access Maths Factor but work will not be set from this until the following week. Teachers will be sending home individual logins and passwords for your child. Active Learn can be used from phones or laptops and accessed via https://www.activelearnprimary.co.uk/login?c=0

The home page will look like this:

Please click the "Log in" and it will take you to the page that requires login details:

Please insert your child's username and password (sent via email). The school code is "ha76" and click "sign in".
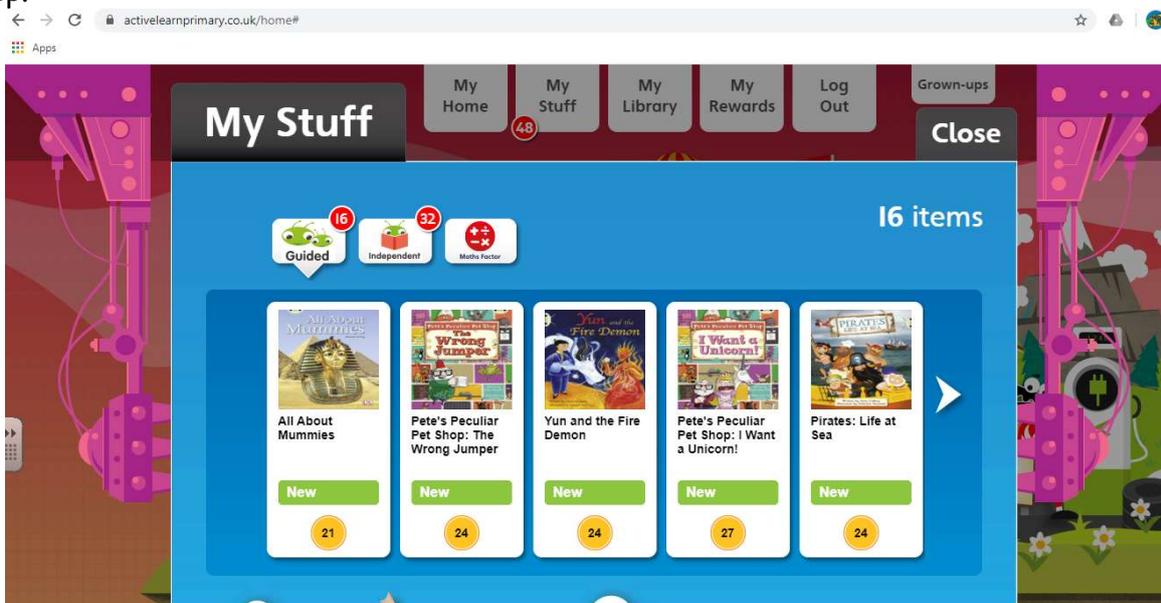

My Home

It will then take you to your child's login page. They may change the theme of their home page from the My Home section. On the ActiveLearn platform, as long as the children read the books and complete the practices, they will earn golds which they may use on different activities. They can see how much gold they have on their My Home page.

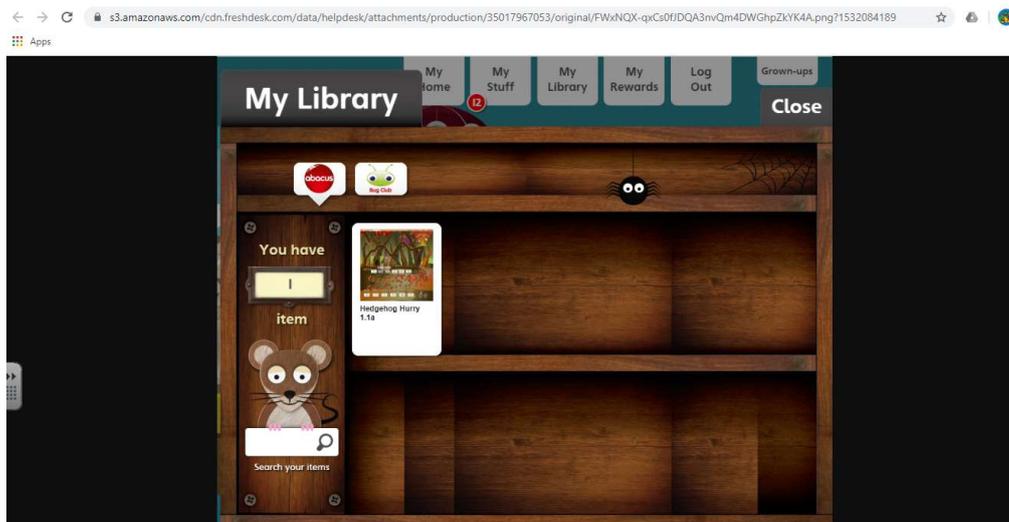

My Stuff

From your child's log in you will find "My Stuff" this is where allocated work will be left for children to work through. They may access the books and activities that are assigned to them by their teacher on the "My Stuff" page. They are able to see other books by using arrow buttons. If you see "Opened" below the books, this means that the book was read but the activities were not completed. They may click on the book again to complete the activities. In order to complete all of the activities, they need to make all bugs on the book sleep.
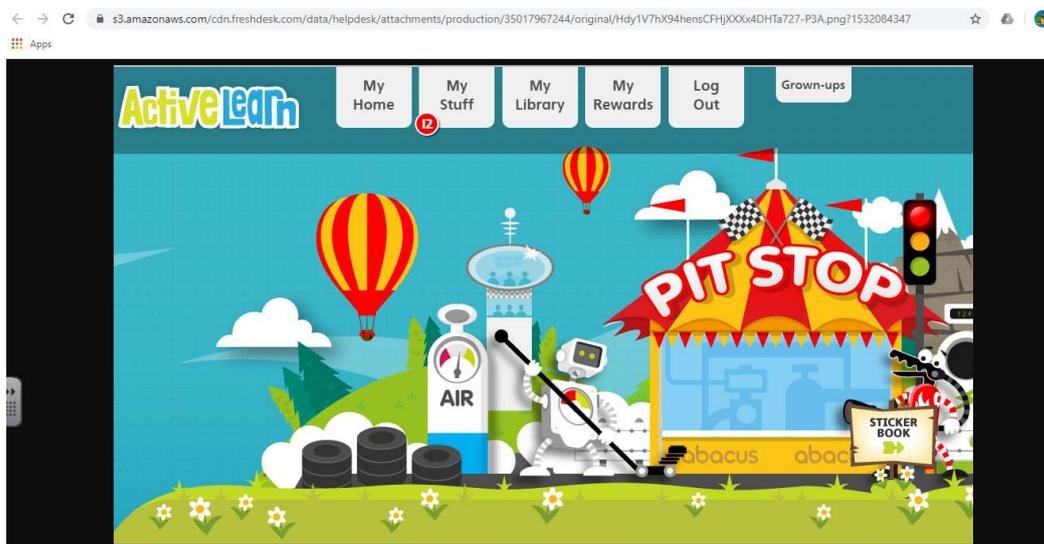

My Library

All of the books that your child has read and the activities they have completed are kept in their private My Library section. They may access the ones that they want to read again from this section.

My Rewards

My Rewards is the page that allows children to choose their rewards. Your children can personalise their avatars and play games on this page. The more they read books and complete activities, the more they are allowed to play games and earn rewards.

Active Learn have created their own YouTube starter guides for parents. Please click on the links below if you would like more support:
